

# LibreMoney

FREEDOM IS NOW

# LibreMoney - what is this ?

- This is a free and decentralized financial system , based on existing protocols cryptanalyst distributed emission-based crowdfunding .
- This is the first and only secure crepault not affected neither inflation nor deflation

# LibreMoney - for whom ?

- For free people who want to earn money with the help of co-financing ( cryptocurrency venture Fund )
- For investors who are willing to buy the currency at the initial stage with the purpose of sale , where the exchange rate will rise .
- For all people wanting to Fund interesting projects , create savings , investing , free to pay .

- New money ( emission ) in LibreMoney can get only the authors of successful crowdfunding projects
- The authors add value to this world and receive for issuance as awards for useful work
- All the money in the LibreMoney provided real useful work

Therefore we ,we say that  
LibreMoney  
is provided currency

# The goals and objectives of the project LibreMoney

## Create:

- Convenient platform for self-funding based Crowdfunding
- Convenient platform for investment
- Reliable tool for long-term storage of money
- The system of settlement ( transfer transaction ) and create contracts
- The platform for full financial system
- The rights of people and the issue of money for their work

# Principles :

- Openness . Is a fully open system . Know everything about everything .
- Decentralisation is not a single server , there is no uniform data transfer mechanism.
- The stability. Maximum cryptographically protection . Encryption ( data transmitted , stored data ).
- The anonymity . To exclude the possibility of tracking the actual location of the user .
- The scalability . The ability to scale up indefinitely large. Including the ability to work the system in interplanetary scale .
- The reliability . Clear performance goals regardless of the desires of third parties .
- Unambiguity . Single , no Pets parallel different subnets on the same system , fragmentation is not allowed .

# ВОЗМОЖНОСТИ

- Investment
- Joint financing of projects
- Venture capital investment
- Accumulating and saving
- E-commerce
- Freelance
- and other

# Circumstances

- The issue is only when creating a new public benefit values
- The amount of money reflects a set of values in the system
- The emergence and cash flows are subject only open algorithms .

# The functionality of the website LibreMoney.com

- Manage personal wallets
- Creating of Crowdfunding projects
- Funding of other Crowdfunding projects
- Management of communities and groups
- Exchanger Lm → BTC / RUR / EUR / USD

# Original issue

- For simplicity the initial rate  
 $1 \text{ Lm} = 1 \text{ RUR}$
- Therefore , the initial issue is  
 $1\,000\,000 \text{ Lm} = 1000 \text{ KLm} = 1 \text{ MLm}$
